

The TMMi Foundation welcomes a new Chairman!

We are proud to announce that Bernard Melson has been appointed as chairman of our Board of Directors. Bernard's 40+ years of experience in IT and business will help the TMMi Foundation to continue to grow and help us make our mark on the global test process improvement stage.

We would also like to thank Les Murray for his contributions as previous chairman over the past two years.

Further Changes in the TMMi Board of Directors

Since the very beginning of the TMMi Foundation, Fran O'Hara has been an integral part of making the TMMi Foundation what it is today. We are proud to have had his ongoing support as Treasurer and member of the Management Executive. We are honored to announce that Mac Miller is stepping in as Chief Financial Officer.

We would also like to thank Ian Howles for accepting the Secretary position in the BoD. He has also been going above and beyond and supporting us with website updates and general Zendesk and webmaster support.

Local Chapters

2017 has been an exciting year for the creation of TMMi Local Chapters, having 10 local chapters formed by – each supported by the Regional ISTQB Board. Here they are listed in order of them being founded:

1. Italy – supported by the ITA-STQB (Italian Software Testing Qualifications Board)
2. Bulgaria, Romania, Serbia & Montenegro – supported by the SEETB (South East European Testing Board)
3. Finland – supported by the FiSTB – Finish Software Testing Board
4. India – supported by the ITB – Indian Testing Board
5. China - supported by the CSTQB – Chinese Software Testing Qualifications Board
6. UK - supported by the UKTB – UK Testing Board
7. France - supported by the CFTL – Comité Français des Tests Logiciels
8. Hungary – supported by the HTB (Hungarian Testing Board)

9. Brazil – supported by the BSTQB (Brazilian Software Testing Qualifications Board)
10. South-Korea – supported by the KSTQB (Korean Software Testing Qualification Board)

Further countries and regions are currently in the process of creating a TMMi Local Chapter. If you are looking to start one, or get involved in any of the ones listed above, please never hesitate to let us know – we look forward to supporting you.

The main objective of the local chapters is to support the TMMi-model for test process improvement in the local communities. Local chapters can support the organization of public events, reach out to and support new and existing training providers in the region and support translate the TMMi-model into the local languages (where applicable).
