

## The TMMi Foundation welcomes Rogier Ammerlaan

We are very proud to welcome Rogier Ammerlaan to our board of Management Executives. Rogier is responsible for the technical support of our website and support system. TMMi is nothing new for Rogier, as he has already been involved in the TMMi Foundation in the past for nearly 4 years.

**Welcome Rogier  
Ammerlaan!**

## White paper on DevOps and TMMi

Under the enthusiastic leadership of Matthias Rasking and his team, a DevOps white paper of has been written on behalf of the TMMi Foundation. The official review was completed a few weeks ago – and as a result – the expert authors are working through the excellent comments to finalize the paper entitled: “How TMMi supports the Three Ways of DevOps”. When the white paper is ready, it can be downloaded from our TMMi website. [Follow us on LinkedIn](#) to be one of the first informed when it is released.

## Next edition of “TMMi in the Agile world” is released

Don't miss the next edition of our document “[TMMi in the Agile world](#)”, which has been published on the TMMi website. This edition will explain how TMMi can be used in an agile environment, and will specifically address the TMMi levels 2 and 3.

## KPMG (India) reinstated as Assessment Service Provider

We are pleased to announce that KPMG has been reinstated as an Assessment Service Provider. Two KPMG employees (R. Kannan and P. Binjrajka) have also been re-accredited as TMMi assessors.

## Two new companies have been recently recognized as TMMi Training Providers

**Shanghai Taorui Information Technology Co. Ltd (imbus, Shanghai)**  
Shengrong Road. Shanghai, China, 200120.
